

**BIOMEDICAL ENGINEERING DEPARTMENT
QUALIFYING EXAMINATION AND CANDIDACY
STUDENT EVALUATION**

Student's Name: _____ Date: _____

Advisor Name: _____ Advisor's Signature (required): _____

In order to assist the Department of Biomedical Engineering in evaluating the student's request to take qualifying examination and achieve candidacy status, please give your brief assessment of the student with respect to EACH of the following headings. Incomplete evaluations may be returned for clarification.

Problem solving ability:

Creativity:

Productivity:

Ability to work and learn:

Communication skills:

Knowledge of research field:

Directed Research Project and/or preliminary research results:

**BIOMEDICAL ENGINEERING DEPARTMENT
QUALIFYING EXAMINATION AND CANDIDACY
STUDENT EVALUATION (continued)**

Overall research promise:

Academic quality of the proposed project:

Student's familiarity with the literature and previous work:

Appropriateness of academic and/or clinical significance of the project with respect to a doctorate in BME:

Appropriateness of the project scope and timing:

Appropriateness of the specific aims and overall research design:

Degree to which the project matches the student's interest and abilities:

Briefly describe how this student is expected to be supported academically and financially during his/her doctoral work:
